DV and Older Delawareans

ABUSE HURTS AT ANY AGE

DOMESTIC VIOLENCE AND OLDER DELAWAREANS

1 in 10 older adults living at home experience abuse and/or neglect each year.

Only 1 out of 20 cases are reported.

Most people who experience abuse suffer more than one type of mistreatment: financial, physical, neglect, isolation.

Elders who are abused may experience...

- Embarrassment
- Economic loss
- Spiritual and emotional trauma
- Institutionalization
- Loss of independence
- Poor quality of life
- Pain or injury
- Premature death

Substance abuse is a common factor.

- Who usually abuses older people?**
- Adult Children 49%
 - Spouses / Partners 15%
 - Other Relatives 36%

Why don't people report?

- Shame
- Fear
- Isolation
- Inability to report
- Unaware abuse is happening
- Unaware of where to find help

If you suspect an older Delawarean is being abused, neglected, or exploited, call 1 800 223 9074. If someone is in immediate danger, call 911.

Supportive services reduce the longterm harm:

- Healthcare
- Counseling
